INSTRUCTIONS

1. Wipe a damp sponge over the entire plate to remove dust and contaminants.
2. Paint 1 thick coat of Mississippi Mud all over the toucan until no white is showing.
3. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl as you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
4. Paint 1 coat of Kiwi, Pumpkin Pie, Red Hot, and Oceanscape on the beak.
5. Paint 1 watery coat of Licorice on the head, body, and tail.
6. Paint 2 watery coats of Sunny Side Up on the neck.
7. Paint 2 coats of Kiwi around the eyes.
8. Paint 1 thick coat of Licorice on the eyes.
9. Paint 1 watery coat of Mocha Java on the branch.
10. Paint 1 watery coat of Guacamole on the grass.
11. With Snow Flake, add small eye shine dots with the back of a paint brush.

TIPS

- Allow paint to dry between coats.
- Wash brush between colors.
- If you wipe too much color off while antiquing, just apply more of the dark color, let it dry until it has lost its shine, and re-wipe with the round sponge.
